The doctors claim to have Yellow Jack by the hind leg, and promise to hold him down until frost comes and freezes him out.

We want to enlarge the BREEZE to double its present size and will do it, if the merchants of Crawfordville will give us the slightest encouragement to do so.

Now, in his old age, Gladstone has gone to scraping up kinship with royalty. He claims direct descent from Henry III, of England, and Robert Bruce, king of Scotland. From this it seems that the "Grand Old Man" is not satisfied with the reputation that he has made for himself.

The Georgia negro was content ed and prosperous under national democratic rule. He expected no office and wasted no time seeking one, but the advent of republican rule at washington revived his foolish thirst for office and brought to him either sore disappointment or contention and blood prompted him to protect a prisonshed.

The police and constables of the surounding region were called to the scene, but were unable to cope with the rioting borde, who continued hostili-

Lots of our scheming politicians are degenerated and fallen farmers, only occasionally you find a reformed politician succeeding with a farm."

It is the good swimmer generally who ventures too far out and gets drowned. Miss Helen Sawyer was a good swimmer, and familiar with the surf at Pablo, and less than one minute before she was drowned, she was calling to her friends to come out further into the surf and was chaffing them as cowards because they feared to follow her farther out.

The suggestion of Italy to colonize all the anarchists on an island, and let them run it to suit themselves, and the proposition of Spain to appropriate for that purpose one of the Phillippine, or Caroline Islands, is, we think, a capital solution of the anarchist question. Now let the blatant, peace disturbing anarchist get up and move or shut up and go to

A very mistaken and degraded idea of loyalty was that entertained by Velasquez, the Mexican chief of police, who murdered Atroyo, the assailant of president Diaz. True loyalty to the head of his government ought to have er, at all hazards.
